

Congratulations,

you are interested in one of the most beautiful and exciting jobs of the world:
Diving Instructor!

I still remember clearly the decision to become a Scuba Instructor myself – a decision that still enriches every day of my life.

Therefore I am very aware of the importance of choosing the right Instructor Development Course, as the way to a successful career in diving requires total dedication and a considerable amount of one's time and cost.

A brief word about our prices. All of our instructor packages come with an **all-inclusive guarantee!** This means that all instructor packages include all PADI fees, all necessary IDC materials and even the EANx specialty instructor course! This saves you from unpleasant financial surprises. This is what sets us apart from other providers.

We are convinced to offer one of the best Instructor Development programs available in the branch and endeavour to satisfy our high standard of quality continuously. Therefore we have been awarded three times "The Best Diving Center in the Red Sea" with the "tauchen Award" of Germany's most popular diving magazine!

The dive spots around Hurghada are offering the whole year round one of the best training environments and stunning reefs. Colourful fishes and the warm water of the Red Sea are waiting for you, just 4.5 hours from home.

Enclosed in the following pages you will find important informations regarding our Instructor Training Program, in order to give you an overview about the necessary requirements, the preparation skills and the way the course will be conducted. If you are having any further questions please do not hesitate to contact me at anytime.

Sunny greetings from the Red Sea

Farid Abdel-Al

PADI Platinum Course Director, Tec Trimix Instructor Trainer, EFR Instructor Trainer

IDC Preparation

Our Instructor Development Course is a comprehensive and finely tuned program, custom made to suit each individual's requirements. The right preparation will reduce your stress level during your training and will allow you to absorb the information transmitted in the course and apply it in the most practical way. The following tips will allow you to begin this important step of your training in a calm and relaxed manner.

- Verify that you fulfill all prerequisites required to participate in the IDC:
 - Certified PADI-Divemaster, CMAS***, SSI DiveCon, BSAC Club Instructor or Instructor affiliated with any other association
 - Minimum age 18 years
 - Medical certificate issued within the last 12 months
 - Certified diver for a period of not less than 6 months, a minimum of 60 logged dives (IDC requirements)
 - Certified diver for a period of not less than 6 months, a minimum of 100 logged dives (IE requirements)
 - Verification of current emergency response training, cardiopulmonary resuscitation (CPR) within the last 2 years
- You must bring all certificates from OWD to DM/AI with you. When you are not a PADI Divemaster we also need 2 ID photos from you.
- To be certified as a PADI Open Water Scuba Instructor you have to be an Emergency First Response Instructor (EFRI). We offer you the EFRI course within our Instructor packages for a special price. The EFRI course takes place directly after each IDC.
- Obtain the following PADI materials:
 - IDC Crew Pack (digital)
 - Cue Cards Open Water Diver Course
 - Cue Cards Adventures in Diving Program
 - Cue Cards Rescue Diver Course
 - Cue Cards Divemaster Course
 - Slate Confined Water Lesson Preparation
 - Slate Open Water Lesson Preparation
 - Quizzes and Exams from Open Water Diver course to Divemaster course (digital)
 - Specialty Instructor Manual (digital)

Please note our **All-Inclusive Guarantee**. These materials, all PADI fees and the EANx Instructor are already included when you book one of our Instructor Packages. This is what sets us apart from other providers.

- Review your PADI "Diving Knowledge Workbook". This is by far the best preparation for a successful completion of the 'theory of diving' test.
- Practice the use of your dive planner (table version and eRDP Multilevel).
- Try to assist a PADI Instructor as often as possible.
- Brush up your diving skills to presentation level.
- Check if your personal dive equipment is complete and in good working condition.
- RELAX! Look forward to completing your IDC and to a successful diving career.

PADI AI – Assistant Instructor Course (4 days)

Upon successful completion of the Assistant Instructor Course you will acquire the authorization to act as a course assistant and to conduct certain PADI Programs on your own. The completion of this course is also a requirement to participate in the OWSI Program.

PADI OWSI – Open Water Scuba Instructor Course (5 days)

In case you are already a PADI Assistant Instructor or an Instructor affiliated to another association, you can increase your career expectations in the diving industry by continuing education to become a PADI Instructor. As a PADI Instructor you will have excellent career options in the diving business.

PADI IDC – Instructor Development Course (9 days)

The cornerstone of the PADI Instructor training is the PADI Instructor Development Course. This program consists of 2 components – the Assistant Instructor (AI) Course and the Open Water Scuba Instructor (OWSI) Course. The combination of both courses is the IDC.

As well as learning how to teach in the class room, the pool and in open water, you will also learn to apply all PADI teaching aids and support materials effectively.

Instructor Packages – the All-In-One-Solution

In order to obtain a comprehensive and stress-free education we recommend booking one of our Instructor packages. Here we combine several courses and lots of extras on a discounted rate (IDC materials, PADI fees, EANx Instructor course included etc.).

Attention: All PADI fees and all Materials for the IDC are included!

Workshops

To get you fit for complex skills, we offer a series of workshops during your IDC. Topics are ascents and descents, the use of a lifting bag, the CESA and knots. These workshops provide you with valuable knowledge for the Instructor Examination and for your later work as a diving instructor. **Important:** All workshops are **included** in the IDC price.

PADI IE – Instructor Examination (2 days)

After having completed the IDC or OWSI Program, you have to participate and pass an Instructor Examination in order to be certified as a PADI Open Water Scuba Instructor. The Instructor Examination is an evaluation program in which you repeat what you have learned in the IDC. The following skills will be examined: theory of diving knowledge, class room presentation, confined as well as open water sessions and your general diving skills. All our previous candidates agreed that the IE was easier than the IDC Program.

For your convenience: During the whole Instructor Examination there will be personal support from our Course Director Farid.

A fair deal: In the unlikely case you fail your Instructor Examination we invite you to participate on a second IDC free of charge.

Continuing Education

Continuing education increases your value as a diving instructor and at the same time gives a good example for your future students. Career possibilities in the diving sector increase rapidly, but at the same time the competition grows constantly, especially at the more interesting destinations and work places.

To optimize your chances it is necessary to give a better performance than the average instructor. Continuing education is putting you ahead of the others as well as increasing your income.

For this we have included the EANx Instructor course in our instructor packages. Of course we have a variety of other continuing education courses in our offer. Any more questions? Just give us a call.

A distinguished Diving Center

Choosing the right Course Director and PADI 5 Star Instructor Development Center is the most important decision which you have to make before you can work as a professional.

We endeavour to satisfy our high standard of quality continuously and therefore we have been awarded four times "The Best Diving Center in the Red Sea" with the *tauchen* Award, Germany's most popular diving magazine!

We are looking forward to hopefully welcome you soon to Hurghada, the home of some of the most beautiful dive sites in the world.

Your IDC Adventure

Hurghada is a perfect place for your IDC. As you will find here one of the best learning environments and excellent diving conditions which attract enthusiastic divers every year from all over the world: an international, exciting atmosphere with a breeze of oriental adventure, warm water (approx. 21–30° Celsius), great climate and friendly people.

Start your career now!

To ensure that you will be able to concentrate completely on your IDC, Blue Water Dive Resort offers you the IDC Programs completely in English.

Notice: The complete IDC is exclusively conducted by our Platinum Course Director Farid.

Flights and Accommodation

For only 285 € you can directly book an appealing accommodation for the duration of your education. This offer is just valid by booking one of our Instructor packages. Flights from all bigger airports across Europe heading to Hurghada are taking off several times a week. We are offering as well a free shuttle service from all hotels in Hurghada to our diving center.
